Cosmetic Dentistry Cosmetic dentistry focuses on the appearance of teeth and may include treatments such as teeth whitening, tooth-coloured fillings, veneers and crowns. Dr Maliha Siddiqui (DEN0001785009) – Registered Dentist, General Registration

Cosmetic Dentistry A range of techniques and procedures can be used in cosmetic dentistry. Treatment options vary depending on an individual's oral health, clinical needs and personal preferences. A thorough assessment and discussion with your dentist is required to determine whether treatment is suitable. Cosmetic dental treatments may also be recommended to restore tooth structure, support function or address damage that affects chewing or speech. As with all dental procedures, outcomes vary between individuals and treatment carries risks and limitations which will be discussed during your consultation. At Smile Solutions we have an experienced team of clinicians practising in all areas of cosmetic dentistry. Working from a single location allows them to collaborate on patient cases and benefit from peer review, supporting continuity of treatment and personalised care.

Book Now Treatment: Porcelain Veneers. After photo taken: approx. 2 weeks post procedure

Porcelain Veneers & Crowns Veneers and crowns are custom-made dental restorations used to restore the function and aesthetics of damaged teeth. They are designed to fit over or bond to natural teeth and may be recommended to help protect teeth that are chipped, broken, or have undergone root canal treatment, while also improving their overall appearance. **Learn More**

Treatment: Composite Bonding. After image taken: approx. 2 weeks post procedure.

Composite Bonding Composite bonding is a minimally invasive treatment that uses coloured resin, carefully applied to your teeth. It is a versatile option that may be used to repair small chips or cracks, mask discolouration, close small gaps, or adjust the shape of teeth to support a more even appearance. **Learn More**

Teeth Whitening Teeth can become discoloured due to various factors, including age, oral hygiene habits, and diet. At Smile Solutions, we offer both take-home whitening and our Zoom! in-chair treatment, which may help reduce the appearance of certain types of staining and discolouration. **Learn More**

CEREC Porcelain Fillings CEREC technology lets us produce custom porcelain restorations in one appointment, providing a strong, natural-looking option when replacing old fillings or treating larger cavities. **Learn More**

Dr Joshua Ch'ng (DEN0001857728) – Registered Dentist, Specialist, Specialist Registration in Orthodontics Orthodontics & Invisalign Orthodontic treatment, whether with braces, lingual braces, clear braces or Invisalign, helps improve the function, health and appearance of your smile. Properly aligned teeth are easier to clean, reducing the risk of decay and gum disease. Because

every smile is different, our team of specialist orthodontists will recommend the option that best suits you, with complimentary consultations available. Learn More Treatment: muscle relaxant injectables. After image taken: approx. 2 weeks post procedure. Gummy Smile A gummy smile can be caused by factors such as a short or overactive upper lip, teeth partially covered by gum tissue, or naturally small teeth. At Smile Solutions, we offer treatments to reduce its appearance. Learn More Free Design Your Smile Consultation Want to improve your smile but don't know where to start? Enhancing your smile is an exciting journey, but the many cosmetic dentistry options can feel overwhelming. Our complimentary 60-minute cosmetic consultation is tailored for patients who want to improve their smile's appearance or explore the options available to them. Book a Complimentary Smile Consultation This appointment is a discussion only and does not include a check-up, x-rays, scans or any other clinical treatment. A \$50 refundable deposit is required to secure the appointment. Why choose Smile Solutions for your cosmetic treatment? Experienced & dedicated team At Smile Solutions, our experienced clinicians practise across all areas of cosmetic dentistry. Based in a single location, our general dentists collaborate with specialists, allowing peer review and shared expertise, which supports continuity of care and personalised treatment for patients. Board-registered specialists for complex cases At Smile Solutions your complex cosmetic treatment will be performed by one of our team of board-registered specialist prosthodontists, periodontists, oral & maxillofacial surgeons, and dual medical qualified dental surgeons – not a general dentist providing care across multiple fields or specialists. Therefore you can rest assured you're in the safest hands. In-House Laboratory made in Melbourne Our in-house Smile Solutions laboratory has been set up exclusively to service our own patients. Our ceramists and lab technicians do not work with any clinicians outside of Smile Solutions, allowing them to dedicate all of their time to creating the very best work for our own patients. We do not send any of our work offshore and only purchase TGA-approved products in the manufacture of our appliances. Superior technology specific to cosmetic dentistry At Smile Solutions, we incorporate advances in dental technology to support diagnosis, treatment planning and delivery of care. Technologies are chosen to suit the needs of each treatment. A calm, beautiful treatment environment Relax in our emotionally serene practice and spacious dental suites, with breathtaking views across Melbourne, creating a comforting, stress-free experience from start to finish.
