Your browser does not support this video. Working with us SMILE SOLUTIONS is Australia's largest single-location dental practice, located in the heart of Melbourne's iconic Manchester Unity Building. Family owned, Smile Solutions has cared for hundreds of thousands of patients over more than 30 years of service. We are a multidisciplinary practice, supported by an experienced team of general practitioners and a diverse group of board-registered specialists in oral & maxillofacial surgery, endodontics, orthodontics, periodontics, prosthodontics, and paediatric dentistry. CORE DENTAL encompasses multiple bespoke practices across the suburbs of Melbourne. With an extensive network of dental suites equipped with the latest technology, Core Dental delivers boutique dentistry of the highest quality. Visiting specialists lend extra support and there is a strong mentorship program across the group. Apply Now Why choose Smile Solutions? Exceptional patient care We pride ourselves on individual, patient-centred care. A testament to this is our practice philosophy, which takes us back to the basics of human relations: striving for excellence in quality of care; overcoming communication barriers; and attempting to view our patients' needs and expectations through their eyes, not our own. Our portfolio of awards has distinguished our practice as a pioneer and leader in Australia's health care industry. Smile Solutions is extremely proud to have been recognised for multiple award-winning service offerings, most notably being named Victorian Business of the Year in the 2014 Telstra Business Awards. Superior Technology We are a group of clinics genuinely invested in the latest technology. Our commitment to advanced treatment modalities, together with the economies of scale of a business of our size, has enabled us to purchase and maintain the very best technology. We have recently acquired 8 new CEREC units, 12 new dental chairs and more Trios machines and iTero scanners to complement our existing fleet. Further to this, we have adopted multiple implant systems and microscopes, in addition to inhouse extraoral imaging such as CBCT and OPG units. This significant drawcard attracts the best clinicians to our practice. With access to the most advanced and newest technology available, our dentists are equipped to provide their patients with optimal care. Our state-of-the-art technology also enables them to offer treatment options that may otherwise be overlooked or unavailable. Extensive patient base Our extensive patient base enjoys consistent growth thanks to our in-house marketing team dedicated to attracting new patients. Owned and operated by a dentist since 1993, Smile Solutions, in conjunction with Core Dental, has built a patient base of over

300,000, with around 20,000 new patients each year. Our orthodontic department brings in more than 3,000 new patients a year, with over one-third of those being new Invisalign starts; this makes us one of the only Blue Diamond Invisalign providers in Australia. The high quality of service we provide, coupled with our size and superior location, means that our practice can command a reasonable fee schedule. Our business has no questionable affiliations with companies contracting others into conducting budget dentistry. Exceptional peer review Our multidisciplinary practice fosters collaboration among clinicians, ensuring patients receive the highest standard of care. Clinicians benefit from seamless mentorship by experienced colleagues, access to in-house clinical lectures, courses, and tuition, as well as opportunities for peer review and discussion. Our dentists are encouraged to perform the full scope of dentistry, including extensive Invisalign and CEREC treatments, and are comprehensively supported through internal CPD education. Clinicians can choose to provide general dentistry or focus on areas they enjoy, with the option to refer patients to senior dentists or specialists within the practice. This approach ensures smooth transitions for patients and delivers the most comprehensive care possible.

Dedicated support team Our clinicians are backed by an experienced and committed team of management, reception, and nursing staff who ensure the smooth running of the practice and exceptional patient experiences. Many of our team members have been with Smile Solutions for over a decade, bringing continuity, deep expertise, and a personal touch that complements the care provided by our clinicians.

Dr Maliha Siddiqui (DEN0001785009) – Registered Dentist, General Registration

Opportunity As a successful and experienced clinician, you will be able to use your clinical and interpersonal skills to develop your name within our renowned business. We are offering: Part-time or full-time hours Abundant new patients from both internal and external referral sources The opportunity to create your own patient base and build your income within our structure Ability to treatment-plan and treat your own patients with the support of an experienced auxiliary team Work alongside an established hygiene and therapy department as well as our experienced team of treatment coordinators A wide patient base, from children to adults, and specialist support on challenging cases This is an exciting opportunity to create your own patient base and build your income without the usual stresses that come with owning your own business.
