As a new graduate dentist, you will have the opportunity to develop a broad range of clinical experience in a supportive environment at one of our eight bespoke practices across Melbourne. Your browser does not support this video. What is the graduate program? The Smile Solutions and Core Dental Graduate Dentist Program is tailored for clinicians in the early years of their dental career who are passionate about learning and providing quality dentistry in a supportive environment. We are a multidisciplinary group, with our team consisting of over 80 practitioners, including board registered specialists, general dentists, hygienists and oral health therapists. Our business prides itself on the graduate dentist support and growth through a dedicated graduate dentist program that has been carefully refined over the last 30 years. What does our graduate program offer? Dedicated program & mentorship Well established recent graduate program for clinicians including an extensive clinical induction and a tailored ongoing support program. Graduate dentists work with multiple clinical mentors across both general and specialty departments. Beyond the graduate program there are group-wide regular clinical lectures, courses and tuitions held in our training facility centre for all clinicians. Superior technology We are a practice group genuinely invested in the latest technology. By way of example, we have 12 CEREC units, 6 Trios and 16 iTero scanners. Need we say more? Focus on multidisciplinary care Work alongside and develop complex treatment planning skills with experienced general dentists and dental specialists. We support a wide choice of treatment modalities to suit your skill sets and passions. Understanding of graduate needs With some twenty five years of welcoming graduate dentists as the practices have grown (most of whom are now senior clinicians in our team), we know how to nurture and encourage our recent graduates. Work at your own pace with generous, self-directed appointment times, allowing for individual growth and development. Patient centred care with an extensive patient base Some 300,000 patients frequent our group of practices, with a centralised experienced marketing team engaged solely to attract new patients. Owned and operated by a dentist since 1993, the group strongly focuses on the best clinical care tailored to the needs of each patient. Location and ambience Quality fitted dental suites located within eight bespoke practices across Melbourne. Spacious, natural light filled suites with views compliment the expansive reception, staff and sterilisation areas. We are seeking individuals that have an AHPRA registration, exceptional communication and interpersonal skills and a professional, friendly manner. If this position interests you and you would like to discuss potential future working opportunities together, please submit your cover letter and your current resume online via the link below.
