Orthodontic treatment can improve the health and function of your teeth, as well as enhance the health and function of your jaw and associated joints. When your teeth are in the right position, you will find it much easier to maintain good oral hygiene, in turn reducing your risk of developing decay and gum disease. Last but not least, orthodontic treatment can also improve the appearance of your smile. No two mouths are the same and that's why the orthodontic treatment option that is best for you may not necessarily suit someone else. At Smile Solutions, we have on hand an experienced team of dedicated specialist orthodontists who will advise on, and perform, your treatment. Book Now Invisalign® No Braces Invisalign® provides a discreet way to straighten your teeth using clear, removable aligners. The aligners gradually adjust the position of your teeth over time, allowing you to eat, clean, and enjoy special occasions without interference, all while remaining virtually invisible. Learn more Orthodontic Braces Braces are an orthodontic treatment used to correct the position of teeth and improve the patient's occlusion (bite). Learn more Children's Braces & Invisalign® It's often helpful to have an orthodontist evaluate a child's permanent teeth around ages 9 or 10 to determine if future treatment might be needed. At Smile Solutions, we emphasise early intervention, as preventative treatment can sometimes reduce or even eliminate the need for braces later on. Learn more Jaw Surgery Orthodontic treatment can be used to fix most bite problems. If, however, the patient is an adolescent or an adult and the problem is so severe that orthodontic treatment alone cannot correct it, then jaw surgery (also known as orthognathic surgery) may be required. Learn more Free Orthodontic Consultation We offer complimentary 60-minute orthodontic consultation for patients who want to explore the options available to them. Book a Complimentary Orthodontic Consultation This appointment is a discussion only and does not include a check-up, x-rays, scans or any other clinical treatment. A \$50 refundable deposit is required to secure the appointment. Why choose Smile Solutions for your orthodontic treatment? On-site treatment with a specialist orthodontist At Smile Solutions your orthodontic treatment will be carried out on-site by one of our registered specialist orthodontists, not a general dentist. Specialist orthodontists complete a postgraduate university degree specialising in tooth and jaw correction and these are the clinicians who will assess your suitability for

Invisalign and perform your treatment. Australia's largest specialist Invisalign® provider since 2012 Smile Solutions is the largest and most experienced provider of Invisalign® No Braces in Australia, and the only blue diamond specialist provider in Victoria, having completed over 8,700 cases. Premium Invisalign® No Braces Aligners We only use premium Invisalign® aligners, no cheap alternative brands. Invisalign premium aligners are made from proprietary SmartTrack material, offering exceptional comfort, fitting snug around your teeth, and are virtually invisible. Spectacular location During your Invisalign® treatment at Smile Solutions you will also enjoy some of the best views of Melbourne from the peak of the lovingly restored orthodontic tower in the centrally located in the iconic Manchester Unity Building.
