He thrives on the benefits of working as part of a team – being able to predictably achieve beautiful outcomes based on a coordinated plan and in a setting that brings together, in one place, the skills and experience of specialists in all fields of dentistry, as well as those of dental hygienists. Peter believes he can only truly provide satisfaction through determining what his patients value for their dental health and where this fits in to their lives, which is why he makes time to listen. Having had an interest in science and computing for much of his life, Peter embraces technological advances in dentistry, including, for example, the ability to bond beautifully natural, durable ceramic materials to teeth. Peter maintains a career-long passion for ongoing education and plays a key role in Smile Solutions' professional learning seminars. Dr Peter's Smiles All photos and videos are shared with full patient consent. No filters, AI alterations, or unrealistic lighting have been applied. Results, recovery times and potential risks vary for each individual and procedure. Further details about these procedures, including potential risks, can be found here .
